LEASED A \$1,000,000 JEWEL .- Lord Francis Hope, husband of the former May Yohe, of Chicago, has rented the famous Hope diamond to the Duchess of Newcastle in consideration of an annuity which will place his lordship and wife above the pangs of positive desti-tution. This Hope diamond is a celebrated blue gem and one of the first in the gem catalogues of the world. The Duchess of Newcastle has a passion for precious stones. She once offered Lord Hope \$1,000,000 for his family jewel. He was willing enough to sell, but the courts forbade him to do so, as the sale would be do so, as the sale would be contrary to the will of the late Lady Hope, which gave her son the diamond on the condition that should he die without issue it would revert to his brother, the Duke of Newcastle, Lord Hope has been a free and easy liver and has been many times through bankruptcy. His life has been of the up-and down order—sometimes "dead broke." Lately the Hopes have been in such narrow straits that Lady Francis has been thinking of returning to the burlesque stage in order to earn a living for berself and her lord. The renting out of the diamond will probably enable the British aristocrat to save his wife from the necessity of resuming the tights and spangles, from which he rescued her a few yearsago. - [Chicago Times-Herald.

THE VALUE OF FRUIT .- Many fruits contain fatty and albuminous matter in large quantities, and are, therefore, very valuable as foods. A Frenchman, M. Balland, has just published the re sults of his investigations in this field. He investigated with grapes, oranges, nuts, figs, bananas, olives, dates, apricots, almonds, cherries, quinces, straw-berries, raspberries, medlars, apples and prunes. All the fruits mentioned, when ripe, contain from 72 to 92 per cent. of water. In the dried fruits of commerce this proportion falls to 30 and sometimes as low as 10 per cent., the latter being in almonds and nuts. Vegetable albumen matter, of which there is only 0.25 per cent in the pear, reaches 1.45 in the banana, and from 15 to 20 per cent in almonds and nut. In the last named fruits, as well as in from 58 to 68 per cent. Acids are present in largest quantities in strawbarries and gooseberries (1.25 per cent.) Sugar is most abundant in pulpy fruits such as bananas, dates and figs, which constitute veritable hydro-carbonic foods. Fruits should be employed as far as possible in place of beverages, as, not only are they refreshing, but serve at the same time as meat and

> A WONDERFUL CURE OF DIARRHOEA.

A Prominent Virginia Editor Had Almost Given Up, but Was Brought Back to Perfect Health by cham-berlain's Colic, Cholera and Diar-rhoea Remedy-Read His Editoral. From the Times, Hillstille, Va.

I suffered with darrhoes for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoes Remedy and also some testi-monials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life .-[O.
